SUMMARY

Computer Science graduate with strong foundations in programming, data structures, and software development. Experienced in developing Computer web and AI-based applications using Python, Java, and Flask, with familiarity in SDLC principles

EDUCATION

B. Tech Computer Science and Engineering

Sri Padmavati Mahila Visvavidyalayam, Tirupati, India

2022-2026

CGPA: 8.7/10

Intermediate MPC

Kasturba Gandhi Balika Vidyalayam & Jr. College, Chinnaganjam, India

2020-2022

Percentage: 94.0

SSC

Kasturba Gandhi Balika Vidyalayam, Chinnaganjam, India

2019-2020

Percentage: 98.0

SKILLS

Technical Skills:

Programming Languages: C, Python, SQL, Java

Web Technologies: HTML, CSS, Javascript

Frameworks & Tools: Streamlit, Flask

Concepts: OOPs, SDLC concepts, Machine Learning,

AI & Generative AI: LLMs, RAG Chatbots, NLP basics

Libraries: NumPy, Pandas, Scikit-learn, TensorFlow, Keras

Soft Skills:

Analytical Thinking | Problem Solving | Creativity & Innovation | Collaboration | Effective Communication | Continuous Learning

INTERNSHIP

AI & Machine Learning Internship

Edunet Foundation (in collaboration with Microsoft)

- Completed internship training in Artificial Intelligence and Machine Learning concepts.
- Developed hands-on experience with Python, Machine Learning algorithms, data preprocessing, and model development.
- Worked on practical AI/ML projects involving data analysis and predictive modeling.
- Enhanced understanding of Natural Language Processing (NLP) and AI applications.
- Collaborated with peers on project-based learning activities and presentations.

Full Stack Java Trainee | ExcelR

- Developed responsive web pages using HTML, CSS, and JavaScript, and Java
- Implemented client-side validation and backend logic following MVC principles.
- Integrated frontend and backend components for seamless application functionality.

PROJECTS

Student Internal Marks Management System

Technologies: Node.js, Express.js, HTML, CSS, JavaScript, MongoDB

- Developed a web-based system for managing student internal marks and academic records.
- Implemented role-based access for Admin and Faculty to ensure secure marks management.
- Enabled faculty to enter marks within specified deadlines and automatically locked records after submission periods.
- Provided admin override functionality to modify locked entries when necessary.
- Developed an analytics module to evaluate student performance trends and identify at-risk students.
- Automated remedial session creation to support students requiring academic intervention.

CERTIFICATIONS

- Certified in Artificial Intelligence Fundamentals by IBM Skill Build.
- Certified Course on Data Analytics With Python in NPTEL.
- Certified in Artificial Intelligence and Machine Learning by Edunet Foundation in collaboration with Microsoft.
